ENERGYUNITED AWARDS GRANTS TO TEACHERS FOR THEIR ‘BRIGHT IDEAS’

STATESVILLE, N.C.

EnergyUnited is awarding 47 teachers from 9 of the 19 counties they serve with over \$40,000 in Bright Ideas education grants this month to fund innovative classroom learning projects. Nearly 10,000 students at schools in Alexander, Davidson, Davie, Forsyth, Guilford, Iredell, Mecklenburg, Rockingham and Rowan counties will participate in Bright Ideas projects funded by EnergyUnited this year.

“The Bright Ideas grant program helps teachers finance creative projects to benefit North Carolina’s youth,” said Maureen Moore, communications manager of EnergyUnited. “Teachers have so many great ideas, and we’re pleased to help these grant winners bring their ideas to life in the classroom.”

Winning projects include: archaeology, robotics, teaching history in various ways, learning garden composting, studying the human body, fun ways to encourage reading and learning with Legos. This year EnergyUnited will be inviting all the winners to attend one of three luncheons in November, where we will recognize all the winners.

Since the Bright Ideas grant program began in 1994, EnergyUnited has contributed hundreds of thousands of dollars to local teachers. “EnergyUnited is committed to bettering the communities we serve, and we believe there is no better way than through the education of our youth,” Ms. Moore said.

North Carolina’s 26 electric cooperatives collectively have awarded more than \$9.1 million to teachers across the state. The Bright Ideas program has reached well over 1.6 million North Carolina students and sponsored more than 8,800 projects in all subjects including math, reading, science and technology, history, music and the arts.

Bright Ideas grant applications are collected each year from April through mid-September, and winning proposals are selected in a competitive evaluation process by a panel of judges. The application process will reopen for interested teachers in April 2017. To find out more information about the Bright Ideas grant program, visit www.energyunited.com or the Bright Ideas website at www.ncbrightideas.com.

About EnergyUnited EnergyUnited Electric Membership Corporation (EMC) is the largest electric cooperative in North Carolina serving nearly 124,000 metering points.
