ENERGYUNITED SENDS CREWS TO LUMBEE RIVER EMC TO ASSIST IN REPAIRS

STATESVILLE, N.C. – On Wednesday, September 19, EnergyUnited sent six employees to the neighboring electric cooperative, Lumbee River Electric Membership Corporation (EMC) in Red Springs, NC to help make repairs and restore power in the area.

Hurricane Florence created extensive damage through all parts of Lumbee River’s system. Linemen and crew are working diligently to bring power back to all members. EnergyUnited is committed to do whatever they can to help them restore power as quickly and safely as possible.

EnergyUnited CEO, H. Wayne Wilkins, shares “We feel very fortunate that we can send crews to the Lumbee EMC area to assist in these repairs. This falls in line with one of our seven Cooperative Principles: *Cooperation Among Cooperatives*. We’re here to help however we can. Our thoughts and prayers go out to those in the area that are still suffering from damaged homes and long-term power outages due to Hurricane Florence.”

About EnergyUnited EnergyUnited Electric Membership Corporation (EMC) is the largest electric cooperative in North Carolina serving nearly 130,000 metering points. Headquartered in Statesville, EnergyUnited provides electric service in portions of nineteen counties in west central North Carolina which include Alexander, Cabarrus, Caldwell, Catawba, Davidson, Davie, Forsyth, Gaston, Guilford, Iredell, Lincoln, Mecklenburg, Montgomery, Randolph, Rockingham, Rowan, Stokes, Wilkes and Yadkin. EnergyUnited Propane provides products and services to more than 25,000 residential, commercial and industrial customers in 74 counties across North and South Carolina.
