

The #1 Selling Home Standby Generator Brand

16 & 22 kW ENERGY ALLIANCE AUTOMATIC STANDBY GENERATORS

CHOOSE THE #1 SELLING HOME STANDBY GENERATOR BRAND

Generac's Response Series Air-Cooled Automatic Generator is engineered and EPA certified for non-emergency, as well as standby applications. These generators not only provide our customers with backup power, but are an energy source for utility companies to rely on during peak demand times or dispatched during capacity congestion. Backed by Generac's 5-Year Limited Warranty for automatic standby generators.

* Total harmonic distortion (THD) less than 5.0%—lower than both IEEE standards for utility power and published numbers for competitive air-cooled home standby generators.

Generac's Response Series Air-Cooled Automatic Standby Generator is exclusively available to Generac's Energy Alliance Partners.

YOUR UTILITY

This generator is nonemergency certified for utility companies to rely on during high-peak energy usage times.

YOUR HOME

Consumers get the peace of mind of having a home standby generator on their house.

FEATURES

5-Year Limited Warranty for automatic standby generators.

Mobile Link™ Remote Monitoring allows you to monitor the status of your generator from anywhere in the world using a smartphone, tablet, or PC. Easily access information, such as the current operating status and the generator's maintenance schedule. Connect your account to your authorized service dealer for fast, friendly and convenient assistance.

True Power[™] **Technology** delivers best-in-class power quality with less than 5 percent total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.

Generac Response Series Generator is **Engineered and Built in the USA***
*Assembled in the USA using domestic and foreign parts

Generac's G-Force Engines are purpose-built, pressure-lubricated engine capable of handling the rigors of generator use, resulting in power that's more reliable and requires less routine maintenance than any competitive engine.

24/7 • 365 Customer Support Team standing by all day, every day from our headquarters in Wisconsin to answer any questions you might have.

Quiet-Test™ Self-Test Mode runs at a lower RPM for a five or twelve minute test, making generators significantly quieter than other brands while consuming less fuel.

Tough, Durable All-Aluminum Enclosures. Our RhinoCoat[™] powder-coated finish helps make corrosion-resistant aluminum perfect for all weather conditions.

Smart, User-Friendly Controls. Generac's Evolution™ Controller features a multilingual LCD display that allows you to monitor battery status and track maintenance intervals to ensure your generator is always in top operating condition.
