

PROTECT YOUR POWER

Summer storms are here, and while we're doing everything we can to prepare the electric grid, we want you to be prepared for possible outages at any given moment.

IN THE EVENT OF AN OUTAGE, PLEASE CONTACT ENERGYUNITED AT **1-800-386-4833**
OR REPORT IT THROUGH THE MEMBER PORTAL AT **ENERGYUNITED.COM.**

KNOW

HOW TO REPORT AN OUTAGE

Knowing which homes are without power is an essential step in us being able to get the lights back on as quickly as possible. So if you find yourself in the dark this summer, report your outage by logging into the member portal at EnergyUnited.com, using the EU mobile app, or calling 1-800-386-4833.

INVEST

IN A HOME GENERATOR

Keep the lights on and the refrigerator running with a home generator—providing backup power for you and your family in the event of an outage. EnergyUnited is a proud dealer of Generac generators. Contact us today for a backup power assessment from an EnergyUnited professional.

SECURE

TRIPLE SURGE PROTECTION

Defend your home against potential surge risks with 3x the protection. This unique service blocks the three most prominent avenues for surges to enter your home, and we'll waive the installation fee with a two-year agreement.
