

# PAY THE SAME AMOUNT

EACH MONTH.

Why worry about how much you're going to pay for your electricity every month? With our Budget Billing Plan, you don't have to. Under this payment plan, members can take the worry and uncertainty out of fluctuating electric bills by paying the same amount each month.

## ***So how does it work?***

- The monthly payment amount is calculated from the average of the previous 12 months' energy usage.
- An annual recalculation will be performed in May of each year.
- Credit or debit balances at the time of recalculation are equalized over the next 12 months.
