ENERGYUNITED ANNOUNCES NEW CHIEF OPERATING OFFICER

STATESVILLE, N.C. – EnergyUnited is pleased to announce Mr. John McMurray as their Chief Operating Officer effective December 11, 2017. John will be responsible for the day-to-day leadership, management and strategic implementation to achieve EnergyUnited’s vision of transitioning to a leading energy services cooperative. Additionally, John will ensure the company has the proper growth strategies, operational controls, administrative, and reporting procedures, and the people and systems in place to effectively achieve the strategic direction of the cooperative.

John’s career spans more than 30 years in the cooperative, investor-owned and municipal energy space. He has a wealth of expertise and experience in cooperative planning and development, technology innovation, strategy, engineering, operations, customer service and power supply. He also brings an in-depth skillset of leadership and influence, impactful communication, member service mindset, executive relationship building, team building and succession planning experience.

John’s most recent accomplishments have been the innovation of the “Safety Sphere of Influence” and six points of vision that envelopes safety, reliability, technology, financial accountability, employee development and member service. John most recently held an Assistant General Manager role with Lakeland Electric in Florida. Prior to this role, he was Manager of Engineering Services and System Planning at Sumter Electric Cooperative. He has also held positions at Florida Power and Light as Distribution Planning Supervisor, Construction Engineering, Training Supervisor and Customer Service Market Research Analyst.

“John demonstrates strong leadership abilities and is very goal and customer focused”, said Wayne Wilkins, CEO of EnergyUnited. “His vision and experience will help EnergyUnited achieve its vision of transitioning to a leading energy services cooperative.”

About EnergyUnited
