ENERGYUNITED CONTINUES TO WORK TO RESTORE POWER TO ITS MEMBERS

STATESVILLE, N.C. – As of 2 pm this afternoon, there are more than 1,600 EnergyUnited members still without power. The electric cooperative has 125 linemen and crew working in the Foothills and Triad Regions to restore power to all its members. Crews are still dealing with ice accumulation on power lines and downed trees. Restoring power quickly and safely to its members is the cooperative’s priority.

- To report an outage call 1-800-EUNITED (1-800-386-4833)
- Real-time outage numbers can be found on our Outage Map.
- Visit our Storm Center Page for important up-to-date information.

EnergyUnited has also been providing regular updates on its social media channels to keep its members informed:

- EnergyUnited on Facebook: www.facebook.com/EnergyUnited
- EnergyUnited on Twitter: www.twitter.com/EnergyUnited

EnergyUnited would like to remind everyone to stay away from downed or sparking power lines. If you see a line lying on the ground, assume it is energized and deadly. Call our customer care center at 1-800-522-3793 to report the situation. In the event of a major outage, rest assured that our crews will be working around the clock to restore power. As always, safety is our number one priority as we work to restore power.

EnergyUnited wants you and your family to remain safe. If you are using a portable generator, remember to never use it indoors and to place it in a dry, well-ventilated area away from your home. Generators should not be connected to a home’s wiring system, fuse box or circuit breaker unless a qualified electrician has installed a transfer switch between the generator and utility power in compliance with all state and local electrical codes.
