ENERGYUNITED CONTINUES TO WORK TO RESTORE POWER TO ALL ITS MEMBERS

STATESVILLE, N.C. – EnergyUnited crews continue their work restoring power to its members impacted by Tropical Storm Michael. After 3 days of outage repairs throughout our 19 county service territory, we have restored nearly 34,000 members and are working to restore 6,900 who remain without power.

We appreciate members patience as progress through each region’s repairs is conducted in the safest manner possible. EnergyUnited will provide updates as they become available.

Up-to-date information can be found on EnergyUnited’s [Storm Center Page](#) where you can view our outage map, press releases and other important updates. Information will also be posted on EnergyUnited’s [Facebook](#) and [Twitter](#) pages.

EnergyUnited members are asked to call 1-800-EUNITED (1-800-386-4833) or go to our website to report outages that may result from this storm.

It is also important to remember to stay away from downed or sparking power lines. If you see a line lying on the ground, assume it is energized and deadly. Call our customer care center at 1-800-522-3793 to report the situation. In the event of a major outage, rest assured that our crews will be working around the clock to restore power. As always, safety is our number one priority.

We know that not having power is difficult, particularly for those that had a similar experience after Hurricane Florence. We will continue to keep you updated regarding our restoration efforts and rest assured, our crews won’t stop until we’ve restored power to everyone.

About EnergyUnited EnergyUnited Electric Membership Corporation (EMC) is the largest electric cooperative in North Carolina serving nearly 130,000 metering points.
