ENERGYUNITED CONTINUES TO RESTORE POWER

STATESVILLE, N.C. – EnergyUnited crews are continuing to work this morning restoring power to its members impacted by Tropical Storm Michael. After four days of outage repairs throughout our 19-county service territory, we have restored over 42,000 members and are working to restore power to less than 200 members who are still without power, primarily in Forsyth county. If you are still without power, please know our crews are working until your lights are back on. We anticipate restoring power to all members today.

If you are still without power or experiencing issues, please call 1-800-EUNITED (1-800-386-4833) so that a customer care representative can assist you and/or give you an update. Information can be found on EnergyUnited’s [Storm Center Page](#) where you can view our outage map, press releases and other important updates. Information will also be posted on EnergyUnited’s [Facebook](#) and [Twitter](#) pages.

Please remember, safety is a priority. Stay away from downed or sparking power lines, downed trees and/or debris that you may see in some neighborhoods. If you see a line lying on the ground, assume it is energized and deadly. Call our customer care center at 1-800-522-3793 to report the situation.

We thank you for your patience as we continue our restoration efforts. We will continue to keep you updated and rest assured, our crews won’t stop until we’ve restored power to everyone.
